

Frequently Asked Questions

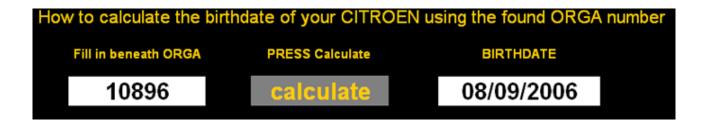

Question

Find out the build date for my car?

Answer

We have an XL spreadsheet to calculate the build date of your C6 from the ORGA number available to download here - Click Here -

Take the first FIVE (5) digits of the number on the tyre pressure label on the door frame to get the build date for your Citroen

My number is 10896CJ so 10896 = 08/09/2006 although the car wasn't registered until September 2007
